Addition - For easier chart printing, download the [Genocide Chart PDF file](#), it includes a text synopsis of this page.

When the gun prohibitionists quote a statistic about how many people are killed by firearms misuse, the discussion sometimes bogs down into whose crime stats to believe and how to count crimes vs. the defensive firearm uses. *Death by Gun Control* works on a level that nobody can dispute: documented world history.

In the 20th Century:

- Governments murdered four times as many civilians as were killed in all the international and domestic wars combined.
- Governments murdered millions more people than were killed by common criminals.

How could governments kill so many people? The governments had the power - and the people, the victims, were unable to resist. The victims were unarmed.

Truth They Cannot Refute

Death by Gun Control delivers the essential - and gut wrenching -- truth that the anti-self defense "gun control" advocates never try to refute. They simply cannot refute the facts or the formula.

Here's the Formula: **Hatred + Government + Disarmed Civilians = Genocide**

What makes the argument so powerful? Two factors. First, it makes common sense: unarmed defenseless people have no hope against armed aggressors. Second, it states the historical truth: evil governments did wipe out 170,000,000 innocent non-military lives in the 20th Century alone.

Using the facts in *Death by Gun Control*, you can take down the enemies of the Bill of Rights. The rights-destroyers have no answers to these facts. They have no excuses for their killer ideas.

JPFO's work has already borne fruit. John R. Bolton, an under-Secretary of State for the United States, this year urged the United Nations to recognize how an "oppressed non-state group defending itself from a genocidal government" will need ready access to firearms. Mr. Bolton might have been the first U.S. official in modern history to have argued to the UN that private citizens might need to be armed against their own killer governments.

Paul Harvey, the world-renowned and much admired radio commentator, last year reportedly broadcast the JPFO-produced facts linking "gun control" to the genocide of millions of unarmed civilians. Country by country, Mr. Harvey counted the murdered victims of civilian disarmament policies.

Our new book could inspire other opinion-makers to join the chorus. Chapters in the book teach about:

- The essential meaning of "gun control"
- The Genocide Formula
- The laws and policies that led to mega murder in Cambodia, China, Nazi Germany, Guatemala, Rwanda, Ottoman Turkey, Uganda, USSR
- Zimbabwe's land invasions and firearms confiscations
- Soaring crime in Britain after gun prohibition
- Violence and police state polices in Japan
- The right and duty of armed self-defense in Judaism and both Protestant and Catholic Christianity
- Racist roots of "gun control" in America
- The United Nations program to disarm civilians worldwide
- Police state polices that condition Americans to accept victim disarmament.

Contributors: Leading Lights for Liberty

There is much more. *Death by Gun Control* features articles contributed by:

- James Bovard (*Introduction*): "Not every firearms regulation leads inexorably to genocide. ... But there is no trigger guard on political ambition."
- Stephen Halbrook, Ph.D. (*Chapter 9*): How Nazi firearms laws disarmed German Jews -- the whole story.
- Jacob Hornberger (*Chapter 10*): Retelling the tragic, inspiring tale of The White Rose Society, college students who paid the ultimate price for freedom of mind.
- Larry Pratt (*Chapter 18*): What the Bible says to Christians and Jews about self-defense and victim disarmament.

Endorsed by Experts

Honestly, is this book any good? Ask David Kopel, scholar at the Independence Institute and author of several books and many articles on firearms ownership and public policy. Mr. Kopel honored our book, saying that *Death by Gun Control* is "one of the best books ever written about the right to keep and bear arms."

There are many excellent books that advance our understanding of the right to keep and bear arms, the Second Amendment and the American liberty philosophy. *Death by Gun Control* is unique because it alone drives directly to the heart of the matter: that "gun control" ideas kill - both overseas and here in the U.S.A.

Past Breaking News: Wave good-bye to the era when Americans could say "it can't happen here." After the September 11 terror attack that killed 3,000 people, Americans no longer ignore "foreign" nations and the history of the world. America has been plunged deep into a perilous world, and our citizens are learning about war and invasion and attack and defense. The lesson of the 20th Century genocides cannot be dismissed any more. The logic of personal self-defense is hitting home. *Death by Gun Control* is perfectly timed to influence people during this window of opportunity. Order extra copies to spread the word.

More Breaking News: Since January 20th 2009 we have a new administration and one that appears totally bent on further eroding all rights, particularly with regard to the Second Amendment. They have many planned ways to "restrict" firearms ownership using "reasonable" limitations but these are a smoke screen for what appears more to be a real attempt to ban guns entirely. The instigation of rendering law abiding citizen's right to keep and bear arms and so render them defenseless must be seen as opening the door to potential genocide. Remember, the bad guys (of all description) will always be armed!

Thomas Jefferson wrote that "A bill of rights is what the people are entitled to against every government on earth, general or particular, and what no just government should refuse."
